EDITORIAL

Founded in 1979, Twintex embarked on a bold mission: becoming a pioneer as the Factory of the future - a Future where quality, social responsibility, and environmental stewardship take center stage.

Today our Team is composed by over 400 motivated workers from 16 different nationalities, whose work we strive to honor and whose wellbeing we make sure to protect.

This year, we proudly present a Twintex Magazine special Edition with a brief presentation of our next step: The creation of the Twintex Campus.

This new facility will bring together the existing sites into one. A more efficient, secure and modern factory, aiming to give our Clients a better service every day.

Together we shape the future of the textile industry and together we are becoming the

45 YEARS

OF SUCCESS

Four decades of experience allied with the Twintex Campus will support a highly dedicated Team.

A Team which is well prepared to everyday respond to all our Client needs, capable of sourcing bespoke fabrics and trims, achieving the perfect fit and

producing premium garments.

What has been achieved so far is the result of human strength, understanding and professionalism because we all play a fundamental role in distinguishing ourselves through Quality and Detail.

twintex CAMPUS

The Twintex Campus will allow production chains to be united to the Logistics Center at Fundão's Industrial Area.

In the future, the entire Twintex Operation will be concentrated at the facility which was inaugurated in 2019. As it is known, the Logistics Center currently holds the cutting department, fabric and trims warehouse, as well as the shipping department,

so next logical step is to bring production chains and product development to this location.

NEW FACILITY & IDEAS

The Twintex Campus will be guided by a Team with core values preserving integrity and transparency through every stage of the production process.

We will value, even more, our environmental and social sustainability and prioritize quality and durability in order to inspire others to follow our example and embrace a **more conscious fashion industry.**

THE HEART OF MANUFACTURING

- Developing a brand new collection** using sustainable material and upcycling technique to produce new garments, maximizing textile waste to enhance second-life pieces and development of an 100% recycled suit improving the way we look to conscious consumption;
- Creation of the Product Development Center** with a dedicated Client area where Clients can work private and comfortably; This space will include a PD Hub, where Clients have access to fabrics, trims and samples, enhancing a more creative and fruitful visit to our factory;
- Building a more sustainable,** modern and efficient site;
- Creating a Smart Warehouse** allowing to work more efficiently with less space.

QUALITY CONTROL

Twintex invests in Quality Control to serve only the best to all Clients using the AQL 2.5 by going through all the following steps:

FABRIC AND TRIMS OUTSOURCING

Twintex has a design team specialized in outsourcing fabrics and trims, which every season visits national and international fashion fairs, also suppliers come visit Twintex to present their collections. This way, Twintex is always up to date on trends, sustainability, social compliences.

We have a great variety of trims and fabric swatches from multiply mills in various colors and qualities available to send to our Clientes based on their specific requirements.

Our Development Team elaborates inspirational Books unique for each client in accordance to their target specifications and demands.

Twintex has the capacity to present a premium product, the **Twintex Trim Pack**, a product with our high quality articles at a very competitive price, made with the support of your own specialized Pattern Designing Team, who can efficiently adjust the specifics of fabric consumption according to the workmanship specific to the details of each piece for each Client.

The Concept which embraces the environmental and social responsibility. Twintex thrives to support the whole Team. At the moment, 16 different nationalities compose our Team, and every single member is aligned with Twintex' Mission.

"Today we have the privilege of being a multicultural Company due to the variety of nationalities we have at home and due to the wide range of countries to which we export"

Bruno Mineiro, Director of Expansion

MEET

THE TEAM

Remember, behind every piece there is a story of hard work and dedication, reflecting the passion and love of those who built every garments' detail. Next time you sell your brand think of Twintex, the unseen hands that made it possible.

Fashion isn't just about clothes, it's also about the People who make them”
